D = Lamiera plastificata
 RAL = RAL non metallizzato
 (verniciatura polvere epossidica)
 P = Vernice speciale metallizzata
 I = Acciaio inox
 W = Legno
 WXX = Altri colori "W"
 ★ = Colore con sovrapprezzo

Si eseguono personalizzazioni e colori speciali su richiesta del cliente.

La nostra verniciatura (P) a base acquosa garantisce maggiore brillantezza, più spessore di vernice, alti livelli di igiene e salute in ogni punto vendita oltre che un ciclo produttivo rispettoso della salute dei lavoratori e dell'ambiente. A causa delle tecniche di stampa, i colori possono essere diversi da come sono presentati.

D = Plastic-coated
 RAL = Not metallized RAL color
 (epoxy powder painting)
 P = Special metallized paint
 I = Stainless steel
 W = Wood
 WXX = Other "W" colors
 ★ = Color at Extra cost

We make custom and special colors on request.

Our aqueous coating (P) provides more brightness, more coating thickness, high levels of hygiene and health in each store as well as a production cycle which respects the health of the workers and the environment. Due to printing technics, the colours could be different to how they are represented.

D = Tôle Plastifiée
 RAL = Couleur RAL pas métallisée
 (peinture en poudre époxy)
 P = Peinture spéciale métallisée
 I = Acier inox
 W = Bois
 WXX = Autres couleurs "W"
 ★ = Supplément couleur

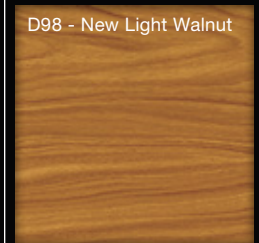

Nous faisons des couleurs personnalisées et sur demande spéciale.

Notre peinture (P) à base aqueuse garantit un brillante meilleur, un plus gros épaisseur de vernis, hauts niveaux d'hygiène et de santé dans chaque magasin et en plus un cycle de production respectueux de la santé des travailleurs et de l'environnement. A cause des techniques d'imprimerie, les couleurs peuvent être différentes de comme elles sont présentées.

D = Plastifiziertes Blech
 RAL = RAL nicht metallclackiert
 (Epoxid-Pulverbeschichtung)
 P = Spezielle Metallclackierung
 I = Edelstahl
 W = Holz
 WXX = Andere Farben "W"
 ★ = Farb mit Aufpreis

Wir machen Individuell- und Sonderfarben auf Anfrage.

Unsere Wasser basierende Lackierung (P) garantiert mehr Glanz, mehr Schichtdicke, ein hohes Niveau an Hygiene und Gesundheit in jeder Verkaufsstelle sowie ein respektvoller Produktionszyklus der Gesundheit der Arbeiter und der Umwelt. Die Farben können wegen Druck- und Reproduktionstechnik anders sein als die, die im Prospekt angegeben sind.
